KARDAN INTERNATIONAL SCHOOL

## Welcome to Kardan International School

Dear Parents,

Welcome to Kardan International School. I take pride in being part of this community. All schools are special, and every child should cherish their experience in school. At Kardan International School, we provide a safe space to allow our students to grow and learn. Our ambition of being the best school can be found throughout the school in the genuine pride our students and staff take in being part of this community.

As the Principal of the school, I am thrilled to know all my students, and working with their teachers, staff, and parents to help them develop the character traits that will let them succeed in life. We understand and appreciate that every child is unique in their ways and we make it our mission to help them flourish in character and in their academics.

On a daily basis, I lead a team of professionals to ensure that our students excel. Our professional staff implement a unique curriculum that is composed of national and international content and supplemented by enrichment classes such as drama, robotics, art, and athletics. Our world class curriculum is supplemented by impeccable facilities in the form of digital classrooms, specialized enrichment classrooms, playground and athletics facilities, and cafeteria.

On behalf of Kardan International School, I thank you for being part of our community. I look forward to seeing you and welcoming you to our school.

Sincerely,  
Mariam Sadat

## Mission & Vision

### Mission

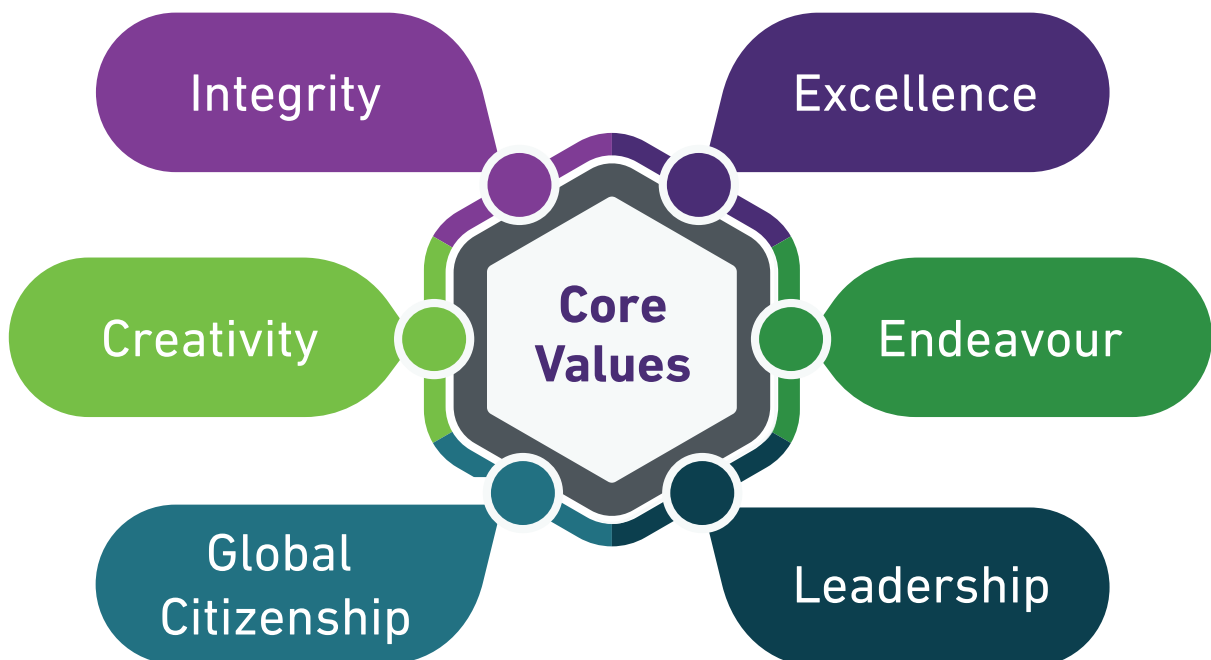

Our mission is to nurture character and academic excellence through quality in learning, teaching, curriculum design and integration of technology .

### Vision

Our vision is to inspire students towards excellence and progress in a safe, value-based learning environment.

## Values

Kardan International School is devoted to the highest standards in learning and the promotion of universal Values that enable us to become active globe citizens.

## Curriculum

---

At Kardan International School, our approach to curriculum selection is three pronged:

- 1) Ensure access to international best practices and latest innovation in school curriculum and content.
- 2) Ensure responsiveness to local regulations and market needs.
- 3) Integrate technology as an integral component of the overall curriculum.

This approach has enabled us to integrate McGraw Hill content in Sciences, Mathematics, social sciences, and English with core national Afghan content in Islamic Studies, history, and other mandatory local content such as Dari and Pashto. Furthermore, our curriculum consists of supplementary enrichment content that will be available to students for selection. These include courses such as Robotics, Coding, and Engineering for Kids,

## Digital Learning

---

Kardan International School offers digital classrooms. Our classrooms are outfitted with the latest education technology tools including digital boards, networked and wireless internet access, digital content, student tablets, and teacher technology corner.

Kardan International School offers our core curriculum and content in digital platforms. Subsequently, Math, English, Quran, IT, Robotics, and Music are offered digitally to students. Our technology orientation and digital delivery of core content will enable our students to thrive in the future economy.

This means that the school does not offer conventional text books to students. We believe that technological integration in education has further expanded the horizons of learning and has redefined expectations especially among younger age groups. Students are provided with tablets that contains all learning material.

## Campus Facilities

Kardan International School campus offers special facilities to allow your child to pursue their passions. Kardan International School campus is located in the heart of Kabul city. Our school building is custom designed for school use, our classroom sizes conform to international standards.
